**RE: BSE Statement**

25<sup>th</sup> July 2002

Dear Customer

Following press, and government guidelines I am writing to inform you of our position with CJD and BSE.

Our premises and all our processes are regulated by Sutton Department of Environmental health. This authority has awarded us, a licence to trade as Butchers. Part of the requirements of this licence is that we must buy our beef from a reputable EEC licensed processing plant, and we must observe strict tracability methods.

All of our beef is supplied to us by Keepac Buchan, and nobody else. All of which is selected from pure breed herds, with no history of illness.

We can however only state that to the best of our knowledge there is no trace of BSE (CJD being the human strain of this particular virus).

I hope this clears up any concerns that you may have.

Respectfully yours,

Daniel Parker
