

D. PARKER & SON

THE TRADITIONAL FAMILY BUTCHER

July 2006 saw D.Parker & Son celebrating 75 years of business, a feat we are proud of. Now we look forward to another 75 years!

Our Company policy reads as follows:

1. Provide the highest possible standard of service to all our customers.
2. Supply safe food.
3. Ensure high standards of hygiene at all times.
4. Guarantee customer service of the highest standard.

We are a traditional family butchers, specialising in all the things that you "used" to be able to buy at the local butchers.

Nearly all of our meat is bought direct from the abattoir. This enables us to offer full traceability, usually back to the farm where the animals are born.

All our beef pork and lamb is sourced direct from one main supplier in Norfolk. All chickens are bought Fresh from British Producers.

All our staff are fully trained in all aspects of food hygiene and modern production methods, plus of course all the traditional cuts and terminology.

We are licensed game dealers, and we also stock some wet fish and shellfish.

A local delivery service for retail customers is available most weeks (subject to availability and quantity).
